Mipango thabiti huleta manufaa

Imekuwa ni kawaida kwa wakulima walio wengi kufanya shughuli zao bila kufanya maandalizi thabiti, na bila kuwa na mipango endelevu. Jambo hili ni hatari sana kwa maendeleo, hii ni kwa sababu hautaweza kufanya kazi zako kwa malengo. Utakuwa mtu wa kuchukua kila linalokuja mbele yako, na mwishowe unajikuta haujaweza kufanya jambo la maendeleo na kutokufikia malengo pia.

Mwaka umeanza, endapo haukufanikiwa kujipanga na kuweka mipango thabiti kabla ya mwaka jana kwisha, bado hujachelewa sana. Kuna msemo usemao tunajifunza kutokana na makosa, hilo lilikuwa ni kosa la kutokupanga, lakini sasa unaweza kuibua mipango yako na ukapata mafanikio mazuri katika mwaka huu wa 2013.

Ni vyema sasa kujipanga na kufanya maandalizi: kuwa ni kilimo cha namna gani utafanya kwa mwaka huu, ni ufugaji wa namna gani unaotaka kufanya, na ni nini malengo yako?

Mkulima Mbunifu liko nyuma ya mipango yako katika kuhakikisha kuwa linakusaidia kupata taarifa muhimu kwa kile ambacho umekusudia kufanya, iwe ni kilimo au ni ufugaji, pamoja na kukuhimiza kuingia katika usindikaji wa mazao utakayozalisha. Endapo hauna wazo kuwa unataka kufanya nini basi soma yaliyomo kwenye jarida hili na bila shaka utapata pa kuanzia, ila kumbuka kuwa mbunifu ili kupata mafanikio zaidi.

Mkulima Mbunifu linapatikana kwenye mtandao

MkM linajaribu kuona ni namna gani linaweza kuongeza ubunifu wa kufanya kazi kwa karibu na kusambaza taarifa zinazohitajika na wakulima kwa karibu zaidi. Kwetu sisi taarifa pekee hazitoshi, lakini ujuzi na utaalamu unaopatikana kutokana na matumizi ya taarifa hizo katika kuongeza uzalishaji na kuboresha maisha ya mkulima. *MkM* limeongeza wigo wake wa upatikanaji kwenye mtandao na hata kupitia mitandao ya kijamii ambayo inalenga zaidi wakulima vijana. Tunapenda kukualika kutembelea mtandao wetu kupitia anuani zifuatazo na utushirikishe pia uzoefu wako kwenye masuala ya kilimo.

Tutumie ujumbe mfupi wa maandishi kwa namba: +255 785 496 036, +255 762 333 876

Endapo una taarifa za mafanikio kwenye kilimo au ugunduzi ambao wakulima wamefanya na ungependa wakulima wengine washirikishwe, MkM linakupa nafasi ya kushirikisha wakulima wengine, na tunatoa nafasi ya wakulima kujifunza kutoka kwa wenzao.

Tunatoa shukrani kwa wakulima wanaoendelea kutushirikisha ujuzi na uzoefu wao kwenye masuala ya kilimo, hasa ufugaji wa kuku na matumizi ya mbolea na dawa za asili. Nawe usisite kutushirikisha ulilonalo.

Mpendwa mkulima,

Tunapouanza mwaka wa 2013, tungependa kutazama mbele tukiwa na matumaini mapya, na kuweka bidii zaidi kwa yale tunayoyafanya, ikiwa ni katika kuwapatia wakulima taarifa za uhakika na wanazostahili. Tungependa pia kuwashauri wakulima kuipa suala la masoko mtazamo mpya.

Tafuta soko kuliko wakati mwingine wowote ambao umewahi. Hii ni kwa sababu soko ni muhimu sana katika uwekezaji na kughuli za kilimo kibiashara.

Mkulima ambaye anapanda mazao yake akiwa hajui atauza wapi, anapanga kufeli au kupata hasara.

Kabla ya kupanda mazao au kuanza kufuga, ni lazima ujiulize swali hili: Ni wapi nitauza mazao yangu? Fahamu soko lako na wateja wako. Endapo unaanza kulima mboga mboga, unaweza kuanza kwa kulima mboga ambazo ni maarufu na zinapendwa na watu katika eneo ulipo. Hakikisha kuwa unazalisha kila zao kwa kiwango cha kutosha, na uhakikishe kuwa yanakuwa na ubora mzuri.

Endapo hauna shamba kubwa au ndiyo unaanza kilimo, ni vizuri kuuza mazao yako kwa wateja moja kwa moja. Kwa njia hii utaweza kupata pesa zaidi na kulipwa kwa haraka, ingawa utahitaji muda zaidi wa kuyauza. Ni vizuri pia kama unapenda kuonana na kuongea na watu tofauti.

Hili siyo kwa uzalishaji wa mazao peke yake, pia kwa mifugo, hakikisha kuwa unachagua mifugo walio na afya nzuri na uweke mipango thabiti ya kuwatunza ili uwe na matokeo bora.

Kuuza mazao yako kwa ufanisi huanza kwa kuhakikisha kuwa umezalisha mazao yenye ubora wa juu. Haijalishi kuwa ni wapi utauza, wateja wanahitaji mazao yenye ubora wa juu. Hakikisha kuwa pia unajipanga kusindika mazao yako yatakayotokana na mifugo na shamba. Pia, ni muhimu kuwa mbunifu, usifanye kile ambacho kila mtu anafanya!

Tunakutakia kheri ya mwaka mpya 2013 wenye furaha na mafanikio tele.
